Dataverse Guide for *World Politics* Authors

*World Politics* has a Dataverse archive, and authors who rely on quantitative data must place these data in this trusted digital repository upon acceptance.

The *World Politics* Dataverse can be found here: [https://dataverse.harvard.edu/dataverse/world-politics](https://dataverse.harvard.edu/dataverse/world-politics). (See the author’s guide to Dataverse for more details on the uploading process)

The information made available should include such items as the original data, specialized computer programs, lists of computer program recodes, extracts of existing data files, and, most importantly, an explanatory file that describes what is included in the data, how it was created, the sources from which it was drawn, and how to replicate the exact numerical results produced in the work.

Information should be provided in any published piece concerning the availability of the data. After you have uploaded the data to the *World Politics* Dataverse you will receive the citation information, which should be included in the reference list, e.g.:

Include reference to the data above the reference list as:

```
DATA
```

Replication files for this article can be found at [https://doi.org/10.7910/DVN/TKTKTK](https://doi.org/10.7910/DVN/TKTKTK)

Embargoes on original, proprietary data for up to two years beyond the date of publication (or other special circumstances affecting the decision to make data publicly available) will be considered, but must receive the approval of the editorial committee prior to publication.
